Andria:

Here is the statement we are releasing. Sorry this took longer than others.

Subject: WHP Efforts

As you all are aware the Women's Health Program is an important fight to the Governor. We are preparing to brief him on all the conservative efforts going on throughout the state to support this fight and defend him on this attack by Planned Parenthood.

I know you are working hard, and we want to make sure the Governor is aware of what your organization is doing to protect life and/or state

sovereignty. Please if you could email me back with a list of everything you have done, whether it is email alerts to your members, media interviews, blogging on articles, or anything else you have done no matter how small you may think it is we want to make sure the Governor knows about it.

If you previously sent our office a copy or notice of anything you have done please send it again to make sure it's included in our briefing.

Please send your responses to me and feel free to copy
Katherine.yoder@gov.texas.gov and Jonathan.Hurst@gov.texas.gov.

I apologize for the short notice but we need these lists by 9:30am tomorrow.

Thank you,
Andria
